

Donate Your Car to a Worthy Cause and Support America Recycles Day

End of life Vehicles are the most heavily recycled consumer product and recycled steel fuels global growth.

Providence, RI ([PRWeb](#)) November 9, 2007 -- Only two weeks left until America Recycles Day on November 15th and most Americans would be surprised to discover what the most heavily recycled consumer product is: Your Automobile.

What happens to that old truck, minivan, sedan, or SUV when it finally dies? Your old car may end up as a bridge in China, a skyscraper in Turkey or the goalposts at the local high school. Responsible recycling of vehicles helps the environment, cleans up the streets and produces recycled materials used throughout the world.

Each year, the steel industry recycles more than 14 million tons of steel from end-of-life vehicles. This is equivalent to nearly 13.5 million automobiles. Recycling steel also saves energy and other natural resources. The steel industry annually saves the equivalent energy to power about 18 million households for a year. Recycling one ton of steel conserves 2,500 pounds of iron ore, 1,400 pounds of coal and 120 pounds of limestone (source: Steel Recycling Institute).

If you're trying to decide what to do with your old junker, consider donating it charity. Advanced Remarketing Services handles the donated vehicles for Habitat for Humanity and many other well known charities. By donating your car to Habitat you can help build homes in your local community, and receive a tax deduction. If you donate through Advanced Remarketing Services you'll be sure that your donation makes a difference. Advanced Remarketing Services returns between 75 percent and 80 percent of the gross dollar raised back to the charity. That is double what most car donation programs return. For more information about the charities they serve, visit: www.donationwizard.com or call 888-828-0022

Do some good for a charity in your community and help clean up streets and driveways from coast to coast.

About Advanced Remarketing Services, Inc.

Advanced Remarketing Services offers innovative solutions to some of the remarketing industry's toughest questions. Every day we help our clients remarket and sell aged, damaged and low end volume for the highest possible return.
