

Snapshot of Habitat for Humanity's National Partners & Sponsors

300,000th/300,001st House Celebration

Thrivent Financial for Lutherans will have engaged more than 135,000 of its members to help build 1,600 Habitat for Humanity houses worldwide by the end of 2008, and has committed \$125 million through the Thrivent Builds alliance.

Since 1999, **Whirlpool** brand has donated nearly 90,000 ranges and ENERGY STAR® qualified refrigerators to Habitat for Humanity homes in North America. The company plans to help support every new Habitat home built globally by 2011, either through product donations, cash or home sponsorship.

As national paint partner, **Valspar** has supported Habitat for Humanity since 2002, and is contributing \$37 million in paint and cash to Habitat organizations by 2012. In addition, Valspar is the driving force behind Habitat's "A Brush with Kindness," a revitalization program that transforms neighborhoods by painting the home exteriors, landscaping and providing minor repairs - a task proven difficult for low-income, disabled and senior homeowners.

The Home Depot Foundation is helping Habitat for Humanity build energy-efficient and sustainable houses through the "Partners in Sustainable Building" initiative. By providing \$30 million in financial, in-kind support, technical resources and training, The Home Depot Foundation will establish a foundation of green building standards that will help Habitat for many years.

Since 2000, **Citi Foundation** has helped Habitat for Humanity make simple, decent and affordable home ownership possible by providing \$29 million in funds and more than 176,000 employee volunteers that helped build more than 350 houses in the United States and more than 180 international projects in more than 40 countries around the globe.

Bank of America has donated more than 150,000 volunteer associate hours and more than \$20 million to help build more than 160 houses across the United States and 100 houses in Mexico since 2002.

Approaching \$20 million in support, **Lowe's** is a national partner of Habitat and underwriter of the Women Build program. Through grant programs, project funding, how-to clinics, underwriting Women Build and contributing to Habitat's Asian tsunami and U.S. Gulf Coast recovery efforts, this partnership has been helping Habitat affiliates in every state and areas of great need since 1996.

One of Habitat for Humanity's longest-running supporters, **The Dow Chemical Company** has donated more than \$11 million in gifts-in-kind products and grants to help build nearly 200 houses in 14 countries around the world.

Square D/Schneider Electric provides electrical distribution equipment for every Habitat house in the United States. In addition, Schneider Electric/Square D has helped build houses as part of Habitat's Gulf Coast recovery effort and other building initiatives.

Yale, and ASSA ABLOY group brand, has provided nearly 375,000 locksets, valued at more than \$10 million, to Habitat for Humanity houses across the United States since 2001.
