

Our programs

International partnerships

Habitat Northern Ireland's international partnerships focus on strategic themes of peace building, disaster response and mitigation, vulnerable groups, and the impacts of urbanization. These partnerships support Habitat's every day work in Ethiopia, Malawi, Romania, India and Cambodia. The Ethiopia Partnership is our most significant international partnership. For more than 12 years, support from Northern Ireland has been transforming lives through small changes which make a world of difference; simple homes, clean water, proper toilets. Recently, the partnership supports Habitat Ethiopia's painstaking work in the slums of Addis Ababa, including home renovations and the installation of community water and sanitation facilities.

Habitat ReStore

Habitat ReStores deliver real impacts for the local community. The low-cost, do-it-yourself stores sell donated new and used building supplies and home improvement materials at 50 percent to 75 percent of the normal retail price. As well as raising funds for our work,

the stores enable local people to improve their homes for less cost, provides opportunities for volunteers from different abilities and backgrounds, and diverts tons of reusable waste from landfill. Habitat ReStores have developed a number of key corporate partnerships. Companies such as QMAC Construction, Murdock Builders Merchants, Creagh Concrete, JP Corry and Weber Saint Gobain, ensure there is a steady stream of quality stock in the stores.

School and youth programs

In Northern Ireland, less than 7 percent of children attend integrated education. Every year Habitat Northern Ireland's schools and youth programs provide meaningful opportunities for 500 young people to come together to explore social justice issues and develop new skills. Interactive workshops, working onsite and a fundraising challenge, encourage young people to become agents of change in their own communities, helping build a shared future for all.

Churches

The powerful, prayerful support of many church partners has underpinned our work since 1994. In a place where religion so often divides, Habitat provides local and global opportunities to put faith in action and serve others as an individual, congregation or in partnership with other churches. As an inclusive organization, Habitat welcomes people of all faiths or no faith to engage in its mission.

Meet a Habitat volunteer

Volunteers are the hands, hearts and voices of Habitat's work. Over 5,000 volunteers from Northern Ireland have travelled through Habitat's Global Village volunteer program to support the work that goes on every day with communities in need. Alan Brown has travelled on Global Village trips from Poland to El Salvador. Motivated by these experiences, he is among those who support Habitat's work by donating every month.

"During Global Village trips, I've seen the difference a small amount of money can make and how Habitat keeps the cost low while ensuring quality. Every bit helps. It is one thing to travel but the need is ongoing; 1.6 billion people do not have a decent place to call home. By giving a little every month I can support Habitat's ongoing work."

Alan Brown, Habitat Northern Ireland supporter

What you can do

You can donate, volunteer or tithe to help build strong communities.
